and Elevations

FULTON COUNTY

The staff of the Department of Natural Resources, Division of Water, has developed the layout, surveys, adjustments, and publications of the following second-order area levels. All field survey records and publication procedures in the process of development of this list may be examined at the office of the Department in Indianapolis, Indiana. Requests for specific information pertaining to the surveys in this county, or others in the State, are accepted as a public service.

Control Station Descriptions
and Elevations

Fulton County

The staff of the D.N.R. Division of Water has developed the following benchmark descriptions and elevations. Second Order Class II Level lines were incorporated into a Star Lev network adjustment incorporating the level lines from both the Tippecanoe River Ora to Monterey flood plain mapping project and the level lines from the Fulton County Levels project.
